Update: Review by Higher Learning Commission, an Assessment report to be done annually on a number of levels, including Academic. Copies of the Assessment handbook are available in Dr. Dyer's office. Do not "invent" information for the Assessment, but report on "where we are." Make sure to include Student Learning Outcomes in courses. An Assessment Committee will be formed and composed of staff, administration and faculty. 5 faculty have alr eady been identified to serve. Dyer encourages websites with course descriptions and student learning outcomes. Looking to increase internships

and apprenticeships and to include an experiential component in all courses.

Congratulations to Nursing Program on excellent site visit. Passed all criteria. The lead evaluator was impressed with the community turn out.
